New York July 13.  
A fire broke out in Barnum's Museum at a quarter to one o'clock today, and by 1 o'clock the entire interior was consumed. The flames shot far into the air above the roof, and the whole block is endangered. The wind being from the west the flames are driven towards Nassau Street on which side is situated the Herald office.  
It is now thought the fire will not extend beyond all the buildings adjoining the Museum on Broadway, and two or three in rear, losing the portion of the block fronting on Nassau street including the Herald building.  
Philadelphia July 13.  
Jay Cook has sent to Parson Brownlow seven trials for about half a million dollars in gold. The specie belonged to the Treasury of the State of Tennessee. When the State was captured by the Union troops, Gov. Harris fled taking the specie along with him. Gen. Upson followed the fugitive rebel; the runaway escaped, but the specie was recovered to Nashville. Parson Brownlow decided to convert the gold into U. S. Bonds. This has been done by Jay Cook and the Bonds taken to Nashville.

**HARTFORD, CT., JULY 13.**  
The Connecticut Legislature has just passed a bill prohibiting railroads in that State from debasing the communication system; also from increasing way fares from rates as they existed July 1st.  
The resolution asking the Governor of New York to recommend to the Legislature the enlargement of the locks in the canals of that State, was agreed to.  
Mr. Littlejohn offered a resolution recommending a Niagara Ship Canal, at the expense of the general government, as a commercial and military necessity.  
Mr. Mitchell offered a substitute, that the canal was demanded, but that under the present condition of the national finances, we cannot ask for its construction by the general government. This was decided by a vote of 96 to 59.  
Mr. Kennedy moved to amend the resolution, striking out the words "military necessity." It was agreed to.  
Mr. Littlejohn's resolution, so amended, was agreed to by 124 to 12.
